Siborongborong,Sumatera Utara

During my university studies, I developed various web and mobile applications using Laravel, ReactJS, Flutter, and MySQL/PostgreSQL. I gained internship experience as a Frontend Developer at Flashcom Indonesia and in IT Support at PDAM Tirtanadi Medan, and also served as both Chairperson and Vice Chairperson of HIMATIF.

Projects

Developing a mobile-based Classification System for Facial Skin Diseases Jul 2025 - Dec 2026

Programmer

- Tools: Flutter (Dart), PyTorch, NumPy (Python), Golang (backend API)
- Deliverables: Cross-platform mobile app with a PyTorch machine learning model integrated into a Golang backend via API

Aplikasi SIAP (Sistem Absensi & Pelaporan) May 2026 - Jun 2026

Project Manager

- Tools: React Native / Flutter, Next.js (admin web), Golang (REST API), PostgreSQL, Docker, WebSocket, NevaCloud (VPS)
- Deliverables: Android/iOS mobile app for 3 divisions (Security, Customer Service, Utility) with selfie + GPS-validated attendance (anti-fake GPS/root detection), reports (daily, hourly, incident) with automatic photo watermarks, digital handover with auto-generated BAST PDF, offline mode with auto-sync; real-time admin web dashboard with live tracking, report approval, and HR/Payroll export; Dockerized Golang backend; documentation, training, and source code

Design and Build LPK MORI Website Nov 2025 - Dec 2025

Project Manager

- Tools: Laravel (Inertia), ReactJS, PostgreSQL
- Deliverables: LPK registration and management information system, and a PostgreSQL relational database

Web Server Configuration in EC2 Apr 2025 - May 2025

Frontend Developer

- Tools: Flutter (Dart), Laravel (PHP) REST API, Firebase (Firestore, Authentication)
- Deliverables: Cross-platform (Android/iOS) online shoe sales mobile app, backend API bridging the app and database, and user authentication (sign-in/registration)

Siborongborong Community Health Center Mobile Application (PUSMASIB) Jan 2025 - Jun 2025

Programmer

- Tools: Flutter (Dart), Laravel (PHP) REST API, Firebase (Firestore, Authentication)
- Deliverables: Cross-platform (Android/iOS) mobile app with online visit registration, real-time queue notifications, and patient medical history; plus a backend API bridging the app and database

Roiyall Coffee Website Feb 2024 - Jul 2024

Frontend Developer

- Tools: PHP (Laravel), JavaScript, MySQL
- Deliverables: Responsive cross-device website and MySQL database for Roiyall Coffee data

Education level

Institut Teknologi Del - Laguboti Aug 2023 - Aug 2026

Diploma in Information Technology, 3.26/4.00

Organisational experience

Himpunan Mahasiswa Teknologi Informasi (HIMATIF) - Institut Teknologi Del Aug 2024 - Dec 2025

Vice Chairman

- Led organizational operations alongside the Chair, implementing work programs to develop IT students' soft and hard skills
- Supported the Study Program through non-academic curriculum initiatives, bridging communication between students and faculty
