Jalan Makmur No.90, Siborongborong, Tapanuli Utara, Sumatera Utara, Indonesia

I am a student at Del Institute of Technology, majoring in Information Technology. During my studies, I successfully completed a final project and gained hands-on experience developing web and mobile applications. I have strong skills in Laravel, JavaScript, CSS, MySQL, Java, SQL, Dart (Flutter), and Python, and I am passionate about continuing to learn and adapt to new technologies.

Through various academic and personal projects, I have built a solid foundation in front-end and back-end development, and I am motivated to contribute fresh ideas, creativity, and dedication as I begin my professional career.

EDUCATION LEVEL

Institut Teknologi Del - Laguboti
Diploma in Information Technology, 3.04/4.00

INTERNSHIP EXPERIENCE

Flashcom Indonesia *Mar 2026 - Jul 2026*
Frontend Developer

PDAM Tirtanadi Medan *Jan 2026 - Mar 2026*
IT Support

PROJECTS

FIRST YEAR PROJECT - Roiyall Coffee Website - Siborongborong *Feb 2024 - Jul 2024*
Frontend Developer

- Utilized PHP with the Laravel framework, JavaScript, and MySQL to build and manage the website.
- Designed and implemented the frontend interface ensuring compatibility across various devices.
- Create and manage MySQL database to store and retrieve data related to Roiyall coffee.

SECOND YEAR PROJECT - Siborongborong Community Health Center Mobile Application (PUSMASIB) - Siborongborong *Jan 2025 - Jun 2025*
Project Manager

- Implementing the frontend using Flutter to ensure high performance and cross-platform (Android/iOS) consistency.
- Firebase integration utilizes Firestore as a structured data store and Firebase Authentication for secure user sign-in/registration.
- Developing key features such as online visit registration, real-time queue notifications, and viewing patient medical history.
- Developing a backend using the Laravel (PHP) framework to build an API that serves as a communication bridge between the mobile application and the database.

Online Shoe Sales App: KicksNStyle - Laguboti *Nov 2024 - Dec 2024*
Fullstack Developer

- The frontend implementation uses Flutter to ensure high performance and cross-platform consistency (Android/iOS).
- The backend development uses the Laravel (PHP) framework to build an API that serves as a communication bridge between the mobile app and the database.
- The Firebase integration leverages Firestore as a structured data store and Firebase Authentication for secure user sign-in/registration.

Design and Build LPK MORI Website - Siborongborong *Nov 2025 - Present*
Project Manager

- Leading the development of an LPK registration information and management system using a modern stack of Laravel Inertia and ReactJS.
- Design, configure, and manage relational databases using PostgreSQL to store data with high integrity.

Web Server Configuration in EC2 *Apr 2025 - May 2025*
Frontend Developer

- Launch and configure a public web server using an Amazon EC2 instance (type t2.micro) running the Amazon Linux 2023 AMI.
- Set up a Security Group to allow traffic on critical ports SSH (22) and HTTP (80), and manage secure remote access using a .pem key pair.
- Deploy and modify website statistics (index.html) directly in the server directory using the nano text editor.

ORGANISATIONAL EXPERIENCE

Himpunan Mahasiswa Teknologi Informasi (HIMATIF) - Institut Teknologi Del *Aug 2024 - Dec 2025*

Vice Chairman

- Leading and managing the organization's operations together with the Chair, responsible for the strategic implementation of work programs that focus on developing soft skills and hard skills of IT students.
- Actively support and advance the Study Program through non-academic curriculum development initiatives, bridging communication between students and academics.
- Act as the primary coordinator between departments, ensuring efficient resource allocation and harmonious team collaboration in executing various initiatives.

Cadres of The Information Technology Student Association Class of 2024 - Institut Teknologi Del *Sep 2024*

Deputy Chairman of the committee

- Directly responsible for the smooth operation and execution of student cadre development events.
- Supervise and coordinate the work of all committee divisions, ensuring that all teams move synergistically according to the established timeline.
